

Project files in Eclipse and Github (Local computer)

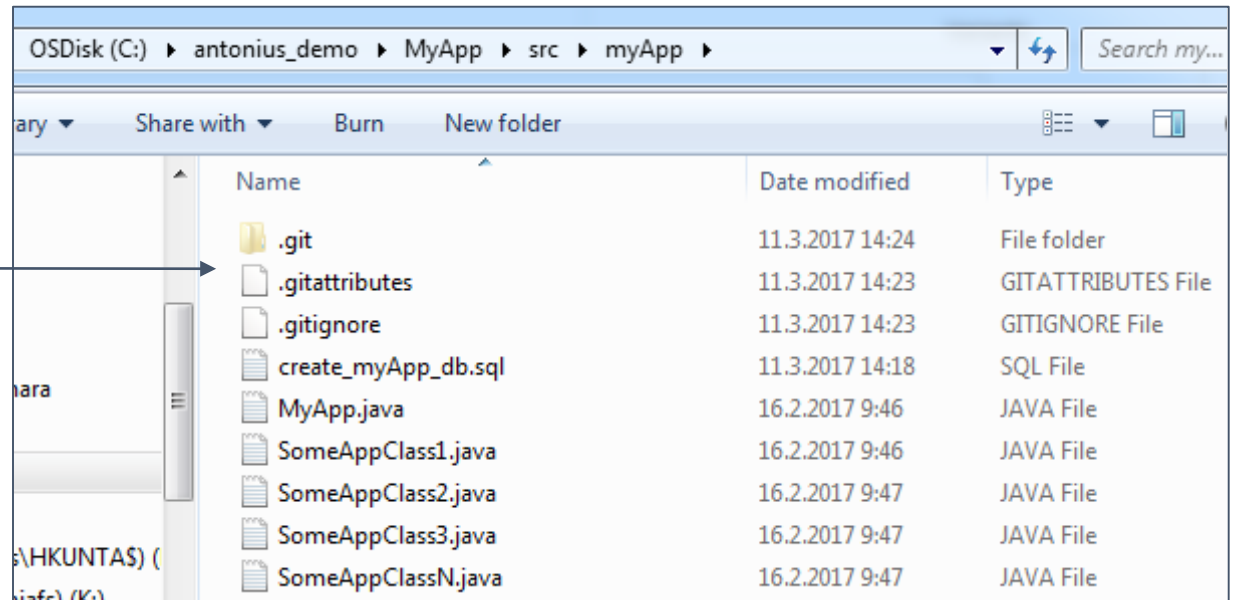

Eclipse – Project Explorer

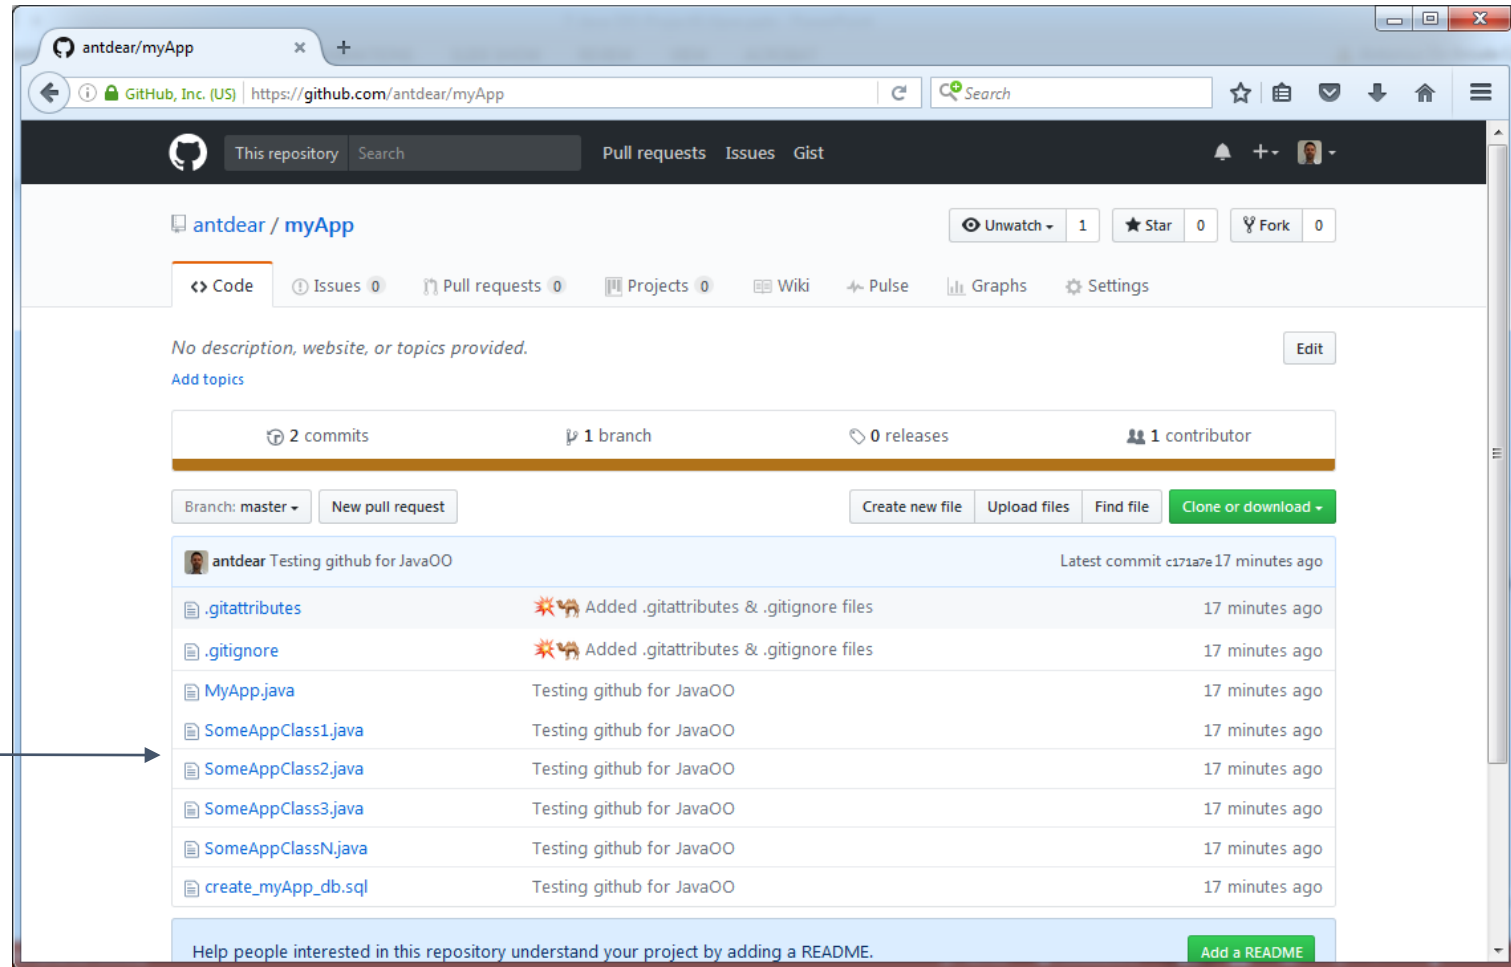

Windows – file explorer

Eclipse workspace: C://antoniush_demo

Folder containing source files:
C://antoniush_demo/MyApp/src/myApp

Project files in www.github.com (public repository)

The screenshot shows a web browser displaying the GitHub repository page for 'antdear/myApp'. The URL in the address bar is 'https://github.com/antdear/myApp'. The repository has 1 commit, 1 branch, 0 releases, and 1 contributor. The file list shows the following files:

File Name	Commit Message	Time
.gitattributes	Added .gitattributes & .gitignore files	17 minutes ago
.gitignore	Added .gitattributes & .gitignore files	17 minutes ago
MyApp.java	Testing github for JavaOO	17 minutes ago
SomeAppClass1.java	Testing github for JavaOO	17 minutes ago
SomeAppClass2.java	Testing github for JavaOO	17 minutes ago
SomeAppClass3.java	Testing github for JavaOO	17 minutes ago
SomeAppClassN.java	Testing github for JavaOO	17 minutes ago
create_myApp_db.sql	Testing github for JavaOO	17 minutes ago

An arrow points from the text 'Here you can see the source files of your project (.java and .sql files)' to the file list.

Here you can see the source files of your project (.java and .sql files)
